

Natural Resources Committee Members:

I am appalled at the small group of animal haters that want to kill wolves. There is no reason for that at all.

With the de-listing of the wolf, from the endangered species list, the Michigan Wolf Management Plan can now be followed which has legislation to deal with possible problem animals.

Please look at the lack of support for hunting wolves even from "sportsmen". Does it make any sense at all to try so hard for so many years to get a species reintroduced and then kill it?

This makes no more sense than a moose hunt.

More deer get killed each year from automobiles than any other method.

Want more deer? Stop driving!

Thank You,

Constance Sherry
